

Euclid Creek Greenway Phase 3

(PID 122357)

Updated 4/1/2026 – The Euclid Creek Greenway is a multi-phased trail project connecting the lower portion of Euclid Creek Reservation to its lakefront portion. Cleveland Metroparks, in partnership with city of Cleveland, was awarded construction funding for Phase 3 of the Euclid Creek Greenway project through the Congestion Mitigation and Air Quality (CMAQ) Program and the Clean Ohio Trail Fund program.

This project includes the construction of a 0.6-mile all-purpose trail beginning at terminus of the Euclid Creek Greenway Phase 2 trail, located along Chardon Road at the former Central Middle School site in the city of Euclid, and extends to St. Clair Avenue in the city of Cleveland. Work includes the installation of the all-purpose trail, ADA improvements, installation of landscaping and streetscaping and other necessary infrastructure improvements to accommodate the trail, including a safer at-grade pedestrian railroad crossing.

Euclid Creek Greenway will require detouring Chardon Road traffic to construct the improvements from Euclid Avenue to St. Clair Avenue. Northbound traffic along Chardon Road will be maintained and southbound traffic along Chardon Road will be detoured using St. Clair Avenue, Nottingham Road and Euclid Avenue. It is anticipated that the detour will be in place for one construction season. Pedestrian access to Euclid Creek Greenway Phase 2 will be maintained at all times.

Construction of Euclid Creek Greenway Phase 3 is anticipated to begin in late 2026 with completion by the end of 2027.

Euclid Creek Greenway Phase 3 builds upon recently completed phases of this project. Phase 1 extended the all-purpose trail from the intersection of Euclid Creek Parkway and Highland Road, including a new traffic signal with pedestrian countdown timers, to Euclid Avenue and Chardon Road. Phase 2 extended the trail across Euclid Avenue through the former Euclid Central Middle School property to Chardon Road.

A future and final Phase 4 this project will connect Phase 3, which ends at St. Clair Avenue, to the lakefront portion of Euclid Creek Reservation. Phase 4 is currently under planning and design.

In addition to prior engagement activities, Cleveland Metroparks is soliciting public comment on the Euclid Creek Greenway Phase 3 from April 3 through May 3, 2026. Members of the public and stakeholders are invited to provide input on project-related issues, including but not limited to potential effects on local residents, air quality, and economic conditions.

Cleveland Metroparks sincerely appreciates your cooperation and assistance so this worthwhile project can be completed at the earliest possible date. **Please submit comments on the proposed project via mail, phone, email, or through the comment form on the project webpage (<https://www.clevelandmetroparks.com/about/planning-design/planning-and-design-projects/projects/euclid-creek-greenway-phases-3-4>) by **May 3, 2026**.**
